## Instructions

This is a game for up to 6 players. Everybody starts with their counters on 0. Decide who will go first. The first player rolls the dice and counts the number. They then move their counter that many spaces along the board. If the player lands on a word, they must try to read it. If they get the word right then they can go up a ladder. If they get the word wrong then they must go down the snake! Then the next player takes a turn. Keep taking turns and trying hard to read the words. The first person to reach 100 is the winner. Good luck!
