

Dinosaurs lived all over the world in all sorts of different places, such as deserts, forests and swamps.

Dinosaurs lived on Earth for a very long time, but they aren't alive anymore. They became extinct around 65 million years ago.

Mary Anning

I was born in Lyme Regis in 1799. I spent most of my days fossil hunting on the beach. I am famous for finding the skeleton of an Ichthyosaurus.

I can name some dinosaurs:

Allosaurus

Ankylosaurus

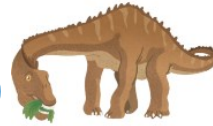

Apatosaurus

Brachiosaurus

Compsognathus

Diplodocus

Iguanodon

Plesiosaurus

Pteranodon

Spinosaurus

Stegosaurus

Triceratops

Tyrannosaurus rex

Velociraptor

I can name some parts of a dinosaur:

wings

legs

claws

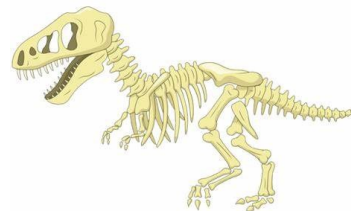

teeth

tail

horn

Key Vocabulary
