

I can name some of the planets in our solar system:

We live on Earth

Neil Armstrong

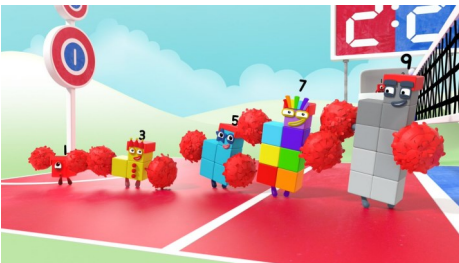

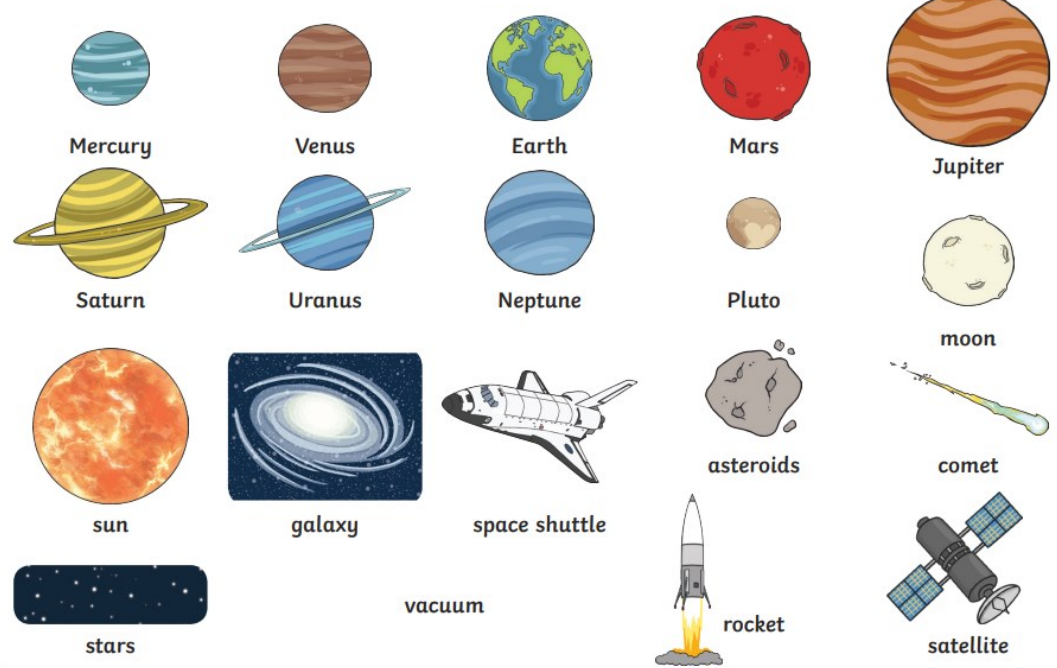

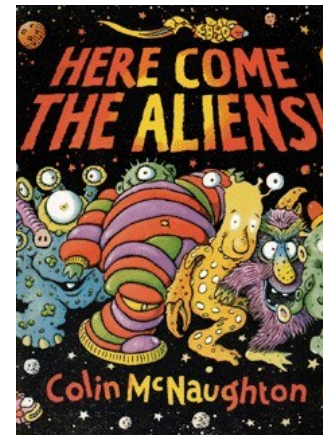

When I walked on the moon I said 'That's one small step for man, one giant leap for mankind.'

Neil Armstrong is famous for being the first man to walk on the moon.

Key Vocabulary	
astronaut	A trained person who serves as a crew member on a spacecraft
space shuttle	A type of rocket
gravity	The force of attraction between two objects
satellite	An object that orbits another object
International space station	A large, manned spacecraft used for space exploration
