describe
 compare
 impact
 explain
 report
 source of evidence
 artefacts

Challenge

- Can you include one of these words when having a conversation with your grown up at home?
- Can you find out some of the words originated?
e.g. centimetre comes from the French centimètre, a combination of the Latin word for "hundred," centum, and the French mètre.
- Can you find synonyms (a word that means the same)?
- Can you create your own word mat with pictures?
